

Procedure: M02 Quality Policy

Revision Date: 01/02/18

Version: 1
Approved by:

Applied Power Systems has established this policy to be consistent with the purpose and context of the scope of our quality management system. It provides a framework for the setting and review of objectives in addition to our commitment to satisfy applicable customer, regulatory and legislative requirements, as well as our commitment to continually improve our QMS.

Customer focus: As an organization, we have made a commitment to understand our customers' needs; meet their requirements and strive to exceed their expectations

Leadership: Our Management is committed to providing the resources required to accomplish our goals

Engagement of people: We recognize that our employees are an essential part of our business and that their full involvement enables their continual growth and contribution to our business performance

Process approach: We understand that a desired result is achieved more efficiently when activities and related resources are managed as a process or series of interconnected processes

Improvement: We have committed to achieving continual improvement across all aspects of our business operations

Evidence-based decision making: We have committed to make decisions relating to our management system following an analysis of relevant data and information

Relationship management: We recognize that an organization and the relationships it has with its external providers are interdependent and a mutually beneficial relationship enhances the ability of both to create value

Our policy is also to meet the requirements of other interested parties and in meeting our social, environmental, regulatory and legislative responsibilities.

We have established quality objectives aligned with this policy. (see QMS Record R03 Quality Objectives)

This policy has been communicated to all employees and is available to stakeholders.
